

WORKSHOP

MANAGING REMOTE LEARNING

WHAT IS THE MANAGING REMOTE LEARNING WORKSHOP?

With a widespread shift to remote and hybrid work, remote learning is here to stay. And rightly so: It's an effective way to engage with learners across geographic locations and time zones, as well as learners seeking greater flexibility in when, and where, they learn. However, remote learning isn't without its challenges. The **Managing Remote Learning Workshop** addresses these challenges so that you can create engaging and impactful remote learning experiences that drive results. From aligning your programs to business goals to assessing your program's impact, this workshop will help you every step of the way along your remote learning journey.

COURSE OBJECTIVES

After completing this workshop, you will be able to:

Make the case for remote learning in your organization.

Effectively source and utilize technology to support your remote learning programs.

Incorporate engagement strategies into all aspects of your remote learning experiences.

Seamlessly convert in-person learning experiences to a remote context.

Leverage your remote learning technologies to enhance your data and measurement strategy.

COURSE OVERVIEW

PRE-WORK

During the prework, you will be given an overview of your remote learning options with the remote delivery toolbox. You will also be given a roadmap to remote program development, including several job aids to help with each step.

SETTING THE STAGE

- Pros and cons of remote learning.
- Tips on hybrid programs.

UTILIZING TECHNOLOGY

- Finding the right recipe.
- Determining your remote learning tech stack.

Activity: Technology speed share.

Job Aid: Conducting a Learning Technology Needs Assessment.

CREATING ENGAGING EXPERIENCE

- Synchronous vs asynchronous engagement.
- Content redesign.
- User experience.

Activity: Engagement strategies group activity.

Job Aid: Creating Engaging Remote Learning.

MEASUREMENT AND MAINTENANCE

- Leveraging passive data.
- Maintenance tips.

CASE STUDY ACTIVITY

Your workshop program capstone will culminate with a case study, challenging you to apply the course concepts to a real-world case study example.

WHO IS IT FOR?

The Managing Remote Learning Workshop is designed for learning leaders looking for innovative ways to manage remote learning programs from start to finish.

Training Industry's professional development consultants are available to discuss this program and other development opportunities. [Contact us](#) or schedule a call directly [here](#).

This highly immersive and super-practical workshop provided us with lots of highly creative stimuli and interesting opportunities to learn and to discuss with my peers some critical remote learning topics such as utilizing learning technologies, creating engaging remote learning experiences, and special considerations for measurement and maintenance of remote learning programs. I enjoyed it much and found it very relevant in our today's L&D reality, merci!

HOW DOES IT WORK?

The Managing Remote Learning Workshop program is completed over a four-hour half-day, in a live, virtual instructor-led (VILT) classroom setting.

Your **instructor** will use their own real-world perspective and experience to ensure the course is rooted in foundational best practices and will guide you through the learning process, both facilitating and assessing your learning throughout the course to ensure you leave with a thorough understanding of the competencies covered and how they apply, or can be applied, in your work context.
